

§ 1901.255

7 CFR Ch. XVIII (1–1–07 Edition)

(a) *Undertakings requiring a historical and archeological assessment.* Although the following undertakings are presumed to involve nonfederally owned lands, they may have an effect on properties having HA significance and, therefore, will require a historical and archeological assessment:

(1) Loans and grants for the development of business and industry including guaranteed loans.

(2) Loans and grants for multiple family housing projects of 25 or more dwelling units.

(3) Subdivision plans submitted for approval having 25 or more building sites.

(4) Loans and grants in rural areas to construct, enlarge, extend, or otherwise improve:

(i) Community water, sanitary sewage, solid waste disposal, and storm waste water disposal systems.

(ii) Other essential community facilities such as fire and rescue, health, safety, public buildings, schools, transportation, traffic, and law enforcement.

(5) Loans to develop community irrigation, drainage, and other soil and water conservation and use facilities.

(6) Loans to acquire and develop grazing land for livestock of an association of members.

(7) Loans in areas designated by the Soil Conservation Service (SCS), U.S. Department of Agriculture (USDA), to conserve and develop natural resources and to contribute to economic improvement of the area.

(8) Loans to protect and develop land and water resources in small watersheds.

(9) Loans to permit Indian tribes to buy land within their reservations.

(b) *Undertakings presumed not to require a historical and archeological assessment.* The following undertakings are generally presumed to involve nonfederally owned lands and not to have an effect on properties of historical and archeological value and will therefore not usually require a historical and archeological assessment. However, when the State Director or County Supervisor finds or has had communication or obtains information from a recognized historical and archeological authority that a specific undertaking

may have an effect on a property included or eligible for inclusion in the National Register, a historical and archeological assessment will be made.

(1) Loans to farmers and ranchers in rural areas for the purchase, development, and operation of farms and ranches.

(2) Loans to individual families in rural areas for the purchase, construction, or improvement of single family residences.

(3) Loans and grants for multiple family housing projects of not more than 24 family dwelling units.

(4) Subdivision plans submitted for approval having 24 or less building sites.

(5) Loans to farmers, ranchers, and other rural residents to develop land, water, and other related resources for increased production of food and other crops, improved pastures, feed crops, water facilities for livestock, and improved habitats for fish and wildlife.

(6) Emergency and disaster loans to farmers, ranchers and other rural residents in declared or designated areas as a result of a major or national disaster.

§ 1901.255 Historical and archeological assessments.

(a) The FmHA or its successor agency under Public Law 103-354 official, normally the FmHA or its successor agency under Public Law 103-354 County Supervisor, who receives a preapplication or application for loan or grant assistance on an undertaking that may have an effect on HA properties will, as part of the process, take the following actions:

(1) Carefully review the State supplements issued by the State Director pursuant to §1901.262(a) to determine whether there are any properties within the project area that appear in the National Register.

(2) Document the following:

(i) A brief narrative report of the findings and conclusions of an on-site reconnaissance of the project area.

(ii) Any “in-house” knowledge of known or suspected HA sites in the project area.

(3) Submit the information outlined in paragraph (a)(2) of this section to the FmHA or its successor agency

under Public Law 103-354 State Director as part of the preapplication or application.

(b) Upon receipt of the preapplication/application the FmHA or its successor agency under Public Law 103-354 State Director will, as a concurrent part of the preapplication/application review, prepare a historical and archeological assessment of the undertaking. In making the assessment the State Director will consider information from the following sources:

(1) State and Regional Clearinghouse comments.

(2) Information submitted by the County Supervisor pursuant to paragraph (a)(2) of this section.

(3) Factual comments or recommendations of the SHPO or other responsible Federal, State, or local officials.

(4) Any other reliable information concerning properties in the project area having HA significance.

(c) Upon completion of the preapplication or application review, the State Director will take the following actions:

(1) When his assessment indicates that no properties of HA significance will be effected by the proposed undertaking, he will proceed with processing of the preapplication or application.

(2) When his assessment indicates that there are properties included in the National Register that may be effected by the proposed undertaking, he will in consultation with the SHPO, the applicant and its representatives, and other appropriate historical and archeological authorities plan appropriate measures to avoid or mitigate any adverse effects. He will also notify the Advisory Council and Secretary of the Interior of the proposed undertaking, and of its possible effect on the National Register properties and provide them with a copy of the proposed plan in order to afford them a reasonable opportunity for comment. Comments that are received with 45 calendar days of notification in accordance with the requirements for comment as outlined in section 106 of the National Historic Preservation Act of 1966, will be considered in further development of the undertaking.

(3) When his assessment indicates that there are properties that may be eligible for inclusion in the National Register, based on his application of the National Register criteria, he will request the Regional Director of the National Park Service, U.S. Department of the Interior, Attention: Inter-agency Archeological Services, in writing, to cause a survey of the project area to be made to determine the significance of the properties in accordance with section 3(b) of Pub. L. 93-291. The State Director's letter to the Regional Director should request a response within 45 calendar days as to whether the National Park Service intends to cause a survey to be made, declines to undertake a survey, or that a survey is not warranted based on available data. The addresses of the Regional Offices of the National Park Service are listed in exhibit A of this subpart. If no response is received within the 45-day period, the State Director will proceed as outlined in paragraph (c)(7) of this section.

(4) The State Director will cooperate fully with the National Park Service in the conduct of a survey should one be undertaken to assure that:

(i) The professional archeologist/historian conducting the survey provides his written opinion as to the eligibility of any identified properties for inclusion in the National Register.

(ii) When the professional archeologist/historian recommends recovery, protection, or preservation of identified properties, the National Park Service is requested to undertake this project.

(5) When the survey made in paragraph (c)(3) of this section does not identify any historical and archeological properties that may be eligible for inclusion in the National Register, or the National Park Service is not going to undertake activity pursuant to paragraph (c)(4)(ii) of this section, the State Director, after consultation with the SHPO and the National Park Service, will document the findings and proceed with processing of the application.

(6) When the survey identifies properties that may be eligible for inclusion in the National Register, the State Director will request the SHPO

to proceed with the nomination of such properties. The State Director will then proceed as outlined in paragraph (c)(2) of this section for any properties accepted for inclusion in the National Register.

(7) When the National Park Service declines to cause a survey to be made or determines that one is not warranted, the State Director will document such facts and proceed with processing of the application.

§§ 1901.256–1901.258 [Reserved]

§ 1901.259 Actions to be taken when archeological properties are discovered during construction.

(a) When properties of significant HA value are discovered during construction, the State Director will immediately consult with the applicant, the SHPO and the Regional Director of the National Park Service to determine whether there is sufficient factual evidence to warrant a decision to stop construction and undertake detailed survey and recovery.

(b) When the consultations in paragraph (a) of this section result in a determination by the National Park Service to request the applicant to stop construction, such stop action should be taken so that the Park Service can initiate measures for immediate recovery within 60 days after notification of a discovery.

(c) When the consultations in paragraph (a) of this section do not result in a determination by the National Park Service to stop construction and to undertake a survey and recovery, construction should be permitted to proceed with caution. In the event that the National Park Service determines that recovery is necessary, the FmHA or its successor agency under Public Law 103–354 applicant/borrower and the Park Service should determine that the consent of all persons, associations, or public entities having legal interests in the property involved has been secured. Also, the applicant should be informed that the Secretary of the Interior is authorized to compensate any person, association, or public entity damaged as a result of delay in construction or as a result of the temporary loss of the use of public or any nonfederally owned land.

(d) No survey or recovery work will be required which in the determination of the State Director would seriously impede FmHA or its successor agency under Public Law 103–354 actions in providing assistance where the State Director determines that immediate action is required to avoid loss or damage of life or property. Nevertheless, appropriate measures will be taken to the extent practical to preserve, protect, or mitigate any damage to properties having HA significance.

§ 1901.260 Coordination with other agencies.

(a) When other Agencies are directly involved in any undertaking that requires a historical and archeological assessment, the State Director will contact the Agencies concerned to determine if a joint assessment will be prepared and whether a single lead Agency will assume primary responsibility for preparing the assessment.

(b) When a lead Agency is agreed upon other than FmHA or its successor agency under Public Law 103–354, FmHA or its successor agency under Public Law 103–354 will provide that Agency with information about its respective areas of responsibility. Assessments will indicate Agency participation and concurrence.

(c) When FmHA or its successor agency under Public Law 103–354 program activities are planned that primarily supplement those of the SCS, USDA, such as watershed projects, resource conservation and development measures, and irrigation and drainage projects, the SCS will be designated as the lead Agency.

§ 1901.261 [Reserved]

§ 1901.262 State supplement.

(a) The State Director shall be responsible for preparing a list of all properties included in the National Register in his area of jurisdiction and issuing such list as a part of a State supplement. Such a list will be updated as needed to reflect changes in the National Register.

(b) State Directors may also supplement this subpart and its exhibit as appropriate to meet State and local laws and regulations.
